Since 1989 the Society for Responsible Design (SRD) has promoted sustainable responsible design as an imperative. This festival has many great examples of this process. SRD is involved again by promoting and reviewing the whole festival with a natural bias towards design that can make a positive difference. Explore more responsible design here >> SRD Change National 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, SRD.org.au

note • some talks, tours & exhibitions are only listed in Events. • all events are good & some are better from a responsible design perspective. Since 1989 the Society for Responsible Design ( SRD ) has promoted sustainable responsible design as an imperative. This festival has many great examples of this process. SRD is involved again by promoting and reviewing the whole festival with a natural bias towards design that can make a positive difference.
